CLINICAL TOXICOLOGY 13(5), pp. 649-657 (1978)

Index to Volume 13*

A

Abrin, 273
Abrus precatorius, 273
Acanthospermum hispidum, 274-275
Acataldehyde intoxication, use of propranolol in, 330
Acetaminophen, analysis for using high performance liquid chromatography, 551-556
Adam, S. E. I., 269-280
β-Adrenergic blocking agents, use for treating cardiac arrhythmias, blood levels of, 580-584
Agricultural chemicals, toxicity of to farm animals in the Sudan, 269-280
Alcoholism, pregnancy and, 531-532
  as volitional disorder, 638-639
Aldrin, liver carcinomas and lesions from ingestion of, 231-256
Alexander, G. A., 487-504
Allantoxanic acid, 53 ff.
American Board of Forensic Toxicology, 647
Amphetamines, 638
  rapid detection of in urine by micro thin-layer chromatography and fluorescence, 545-549
Animal studies, cholinesterase determination in livestock, 557-566
  ethylene and diethylene glycol in rats, 297-324
  identification methods of small laboratory animals, 601-610
  morphine and methadone, effects of on nuclear uptake of estradiol by the brain, rat studies, 383-390
  organochlorine pesticides, mouse studies of carcinogenicity, 231-256
  selection of animal species for research projects, 611-621
  theophylline intoxication—model study with rats utilizing peritoneal dialysis, 505-511
  toxicity of indigenous plants and agricultural chemicals in farm animals in the Sudan,

*This index contains the names of all contributors to Volume 13, 1978.

[Animal studies]
269-280
triphenyl tin hydroxide (Vancide KS), acute and subacute toxicology and safety evaluation of, 291-296
uricase-inhibited rat as animal model, 47-74
Antivenin, international antivenin index, 409-438
Anton, L., 469-478
Apparidaceae fam., 270
Aristolochia bracteata, 270
Arrhythmias, blood levels of drugs used to treat, 567-585
Asbestos, health effects of, 641-643
Asclepiadaceae fam., 270-271
Aspirin, during pregnancy, 529-530

B

Bacle, S., 403-408
Bis(2-ethylhexyl)phthalate, safety of, 89-139
Black, J. G., 1-26
Black nightshade, 273-274
Blanke, R. V., 141-151
Bloching, H., 171-203
Blood studies, cholinesterase in livestock, comparison of two procedures for, 557-566
for drugs used in treatment of cardiac arrhythmias, 567-585
by high performance liquid chromatography, 551-556
Boidard, D., 403-408
Boston Poison Information Center, 623-629
Bretylium, use for treating cardiac arrhythmias, blood levels of, 583-584
Butala, J., 27-45

C

Cadaba rotundifolia, 270
Cadmium, blood level and hypertension in humans, 403-408
Caffeinated beverages, excessive drinking of, 636-637
California Natural Death Act (1977), 513-522
Calotropin, 271
Calotropsis procera, 270-271
Cancer treatments, cis-dichlorodiammine platinum(II), ototoxicity of, 469-478
Carbamazepin, analysis for using high performance liquid chromatography, 551-556
Carbon tetrachloride, liver carcinoma and lesions from ingestion of, 231-256
Carcinogenicity, of chloroprene, 153-170
of organochlorine pesticides, mouse studies, 231-256
Cardiac arrhythmias, blood levels of drugs used to treat, 567-585
Cassia actifolia, 272
Cattle, cholinesterase determination in, comparison of two procedures, 557-566
Children, poisoning. See Poisoning, children
α-Chlordane, liver carcinomas and lesions from ingestion of, 231-256
Chlorine poisoning, at a swimming pool, 377-381
Chlorobenzilate, liver carcinoma and lesions from ingestion of, 231-256
2-Chloro-1,3-butadiene. See Chloroprene
Chloroform, liver carcinoma and lesions from ingestion of, 231-256
Chloroprene, carcinogenicity of, 153-170

Chloroquine, nonfatal poisoning with, 361-369
Cholinesterase, determination of in livestock, comparison of two procedures for, 557-566
Chromatography, high performance liquid chromatography in clinical toxicology, 551-556
micro thin-layer chromatography and fluorescence, rapid detection of amphetamine in urine by, 545-549
Chrozophora plicata, 271
Cigarette smoking, during pregnancy, 530-531
Citrullus colocynthis, 271
Clitocybe claviceps, 329
Clitoria ternatea, 273
Cocaine intoxication, use of propranolol in, 325-332
Codeine, acute fatalities, toxicologic assessment in, 75-87
Coffee, excessive use of, 636-637
Compositae fam., 274-275
Contact dermatitis, factors influencing response to irritants, 333-346
Convolvulaceae fam., 275
Coprine, 329
Coprinus atramentarius, 329
CPDD. See cis-Dichlorodiammine platinum
Crookshank, H. R., 557-566
Crotalayia spp., 273
Cucurbitaceae fam., 271
Cucurbitacins, 271
Curcin, 272
Curtis, L., 409-438
Cvitkovic, E., 469-478
Czajka, P. A., 361-369

D

Dally, S., 403-408
Daniel, J. W., 257-267
Datura spp., 274
Davis, E. R., 281-296
p,p-DDT, liver carcinoma and lesions from ingestion of, 231-256
Deadly nightshade, 273-274
"Death with dignity," Natural Death Act (California, 1977), 513-522
Decker, W. J., 377-381, 545-549
DEHP. See Di-2-ethylhexyl phthalate
Dermatitis, irritant contact dermatitis, factors influencing response to irritants, 333-346
Detergents, fluorescent whitening agents, toxicological properties of, 171-203
Dhurrin, 274
Dibutyl phthalate, toxicity and metabolism of, 257-267
cis-Dichlorodiammine platinum(II) (CPDD), ototoxicity of, 469-478
Dieldrin, liver carcinomas and lesions from ingestion of, 231-256
Diethylene glycol, toxicity of, 297-324
Di-2-ethylhexyl phthalate (DEHP), safety of, 89-139
toxicity and metabolism of, 257-267
Diethyl phthalate, toxicity and metabolism of, 257-267
Digitalis, 570
Dilantin, use for treating cardiac arrhythmias, blood level of, 578-580
Dimethyl phthalate, toxicity and metabolism of, 257-267
Dioctyl phthalate, toxicity and metabolism of, 257-267

Diphenylhydantoin, use for treating cardiac arrhythmias, blood level of, 578-580
Dolichos pseudo-pachyrrhizus, 273
Doxapram, modification of cardiopressor and respirogenic effects of by propranolol, 487-504
Driessen, O. M. J., 505-511
Drug abuse, amphetamines, rapid detection of in urine by micro thin-layer chromatography and fluorescence, 545-549
as volitional disorder, 637-638
Drug analysis, use of organic solvents to remove drugs from biologic specimens, 205-230
Drug overdoses, acute heroin fatalities, toxicologic assessment of, 75-87
use of propranolol in, 325-332
Dusci, L. J., 551-556
Dyro, F. M., 371-376

E

Education programs, community-based, evaluation of, 623-629
Emergency toxicology, alcohol and the ER, 631-632
San Diego Poison Center, 587-599
Emonds, A. J. G., 505-511
Endrin, liver carcinomas and lesions from ingestion of, 231-256
Epoxide, liver carcinomas and lesions from ingestion of, 231-256
Erythrophleum guineense, 272
Estradiol, nuclear uptake of by the brain, effects of morphine and methadone on, 383-390
1,2-Ethanediol. See Ethylene glycol
Ethylene glycol, toxicity of, 297-324
Euphorbia, toxicology of poinsettia plant, 27-45
Euphorbiaceae fam., 271-272
Extraction methods, organic solvents to remove drugs from biologic specimens, 205-230

F

Farm animals. See Livestock
Fentin. See Triphenyl tin hydroxide
Firor, H. V., 463-467
Fluorescence, rapid detection of amphetamine in urine using, 545-549
Fluorescent whitening agents, toxicological properties of, 171-203
Flynn, P. J., 361-369
Fochtman, F. W., 27-45
Forensic Toxicology, American Board of, 647

G

Gaultier, M., 403-408
Gay, G. R., 325-332, 487-504
Gloxhuber, C., 171-203
Glues, methyl ethyl ketone polyneuropathy in shoe factory workers, 371-376
Gout, animal models for, 47-74
Gouveia, W. A., 623-629
Graminae fam., 274

H

Hackett, L. P., 551-556
Haley, T. J., 153-170

Hallucinogens, 638
Helson, L., 469-478
Heptachlor, liver carcinomas and lesions from ingestion of, 231-256
Heroin addiction, acute fatalities, toxicological assessments in, 75-87
morphine and methadone, effects of on nuclear uptake of estradiol by the brain, 383-390
High performance liquid chromatography, use in clinical toxicology, 551-556
Howes, D., 1-26
HPT. See 1-Hydroxypyridine-2-thione
Hughes, Jr., H. C., 611-621
Hydrogen fluoride, toxicity from repeated low-grade exposure to, 391-402
1-Hydroxypyridine-2-thione (HPT), toxicity of 1-26
Hypertension, blood cadmium level and, in humans, 403-408
Hyperuricemia, animal models for, 47-74

I

Inaba, D. S., 325-332
Inderal, use of in I-a (early stimulative) and I-b (advance stimulative) classification of cocaine and other sympathomimetic reactions, 325-332
Indomethacin, analysis for using high performance liquid chromatography, 551-556
Industrial toxicology, asbestos, health effects of, 641-643
chloroprene, carcinogenicity of, 153-170
hydrogen fluoride, toxicity from repeated low-grade exposure to, 391-402
methyl ethyl ketone polyneuropathy in shoe factory workers, 371-376
Inky top mushrooms, 329
Insecticides, toxicity to farm animals in the Sudan, 275-277
Ipomoea carnea, 275

J

Jatropha curcas, 272
Jonsen, A. R., 513-522

K

Kalman, S. N., 567-585
Kepone, liver carcinomas and lesions from ingestion of, 231-256
Kirkman, J. H., 487-504
Koch, H. F., 377-381

L

Lacouture, P., 623-629
Lang, C. M., 611-621
Lasiosiphon kraussii, 271
Laundry products, fluorescent whitening agents, toxicological properties of, 171-203
Lawrence, W. H., 89-139
Lee, J. R., 391-402
Legislation, Natural Death Act (California, 1977), 513-522
Leguminosae fam., toxicity of Sudanese species of, 272-273
Levin, H. S., 347-359
Lidocaine, use for treating cardiac arrhythmias, blood level of for, 576-578
Lignocaine, use for treating cardiac arrhythmias, blood level of for, 576-578

Lindane, liver carcinomas and lesions from ingestion from ingestion of, 231-256
Liquid chromatography, high performance, in clinical toxicology, 551-556
Lithium salts, severe neurotoxicity of, 479-486
Livestock, cholinesterase determination in, 557-566
toxicity of indigenous plants and agricultural chemicals in the Sudan on farm animals, 269-280
Lotus arabicus, 273
Lotusin, 273
Lovejoy, F. H., 623-629

M

Maibach, H. I., 333-346
Manihot ultilissima, 271
Marks, M. J., 281-296
Mathias, C. G. T., 333-346
Maury, P., 403-408
Medical toxicology, 439-462
Mercurochrome toxicity, from therapy of an infected omphalocele with, 463-467
Mercury poisoning, from mercurochrome therapy of an infected omphalocele, 463-467
Methadone, effect of on nuclear uptake of estradiol on brain, 383-390
Methoxychlor, liver carcinomas and lesions from ingestion of, 231-256
Methyl ethyl ketone, neuropathy from in shoe factory workers, 371-376
Micik, S., 587-599
Micro thin-layer chromatography, rapid detection of amphetamine in urine by, 545-549
Minisci, M., 623-629
Minton, S. A., 409-438
Mirex, liver carcinomas and lesions from ingestion of, 231-256
Monocrotaline, 273
Morgan, D. P., 347-359
Morphine, effect of on nuclear uptake of estradiol on brain, 383-390
Mouse studies, carcinomas and other lesions of the liver, after ingestion of organochlorine pesticides, 231-256
Murphy, J. B., 409-438
Mushrooms, ingestion of ethanol after eating cooked inky top mushrooms, 329

N

Nakamura, G. R., 75-87
Narcotics. See Heroin addiction
Natural Death Act (California, 1977), 513-522
Nera, E. A., 47-74
New, A. E., 601-610

O

Obesity, 635
Okonkwo, E., 469-478
Opiates. See Heroin addiction
Organochlorine pesticides, carcinomas and other lesions of the liver after ingesting, 231-256
toxicity to farm animals in the Sudan, 275
Organophosphate pesticides, ingested parathion, effects of on neurobehavioral functions, 347-359
toxicity to farm animals in the Sudan, 275 ff.
Organotin salts, acute and subacute toxicology and safety evaluation, 281-296

Overdoses. See Drug overdoses
Overeating, as volitional disorder, 635
Oxonic acid, 53-54, 64 ff.
2,2'-Oxydiethanol. See Diethylene glycol

P

Paint thinners, methyl ethyl ketone polyneuropathy in shoe factory workers, 371-376
Palmer, J. S., 557-566
Parathion, ingested, effects of on neurobehavioral functions, 347-359
Pesticides, organochlorine, carcinomas and other lesions of the liver after ingesting, 231-256
parathion, ingested, effects of on neurobehavioral functions, 347-359
Phaseolunatin, 273
Phaseolus lunatus, 273
Phenytoin, use for treating cardiac arrhythmias, blood level of, 578-580
Phthalate esters, safety of, 89-139
toxicity and metabolism of, 257-267
Physician advisory, asbestos, health effects of, 641-643
Pi, H. T., 479-486
Pig studies, cholinesterase determination in swine, comparison of two procedures for, 557-566
Pildes, R. S., 463-467
Plants, in the Sudan, toxicity of to farm animals, 269-280
Plasticizers, phthalate esters, safety of, 89-139
cis-Platinum, ototoxicity of, 469-478
Poinsettia, toxicology of, 27-45
Poison control centers, community-based poison education program, evaluation of, 623-629
San Diego Poison Center, 587-599
Poisoning, children, community-based poison education program, evaluation of, 623-629
theophylline intoxication, model study utilizing peritoneal dialysis, 505-511
Polydrug abuse, 638
Polyvinyl chloride, phthalate esters and, 92-93
Potassium oxonate, 53 ff.
Pregnancy, drugs and, 523-533
Procainamide, use for treating cardiac arrhythmias, blood level of, 572 ff.
Propranolol, modification of cardiopressor and respirogenic effects of doxapram by, 487-504
use of in I-a (early stimulative) and I-b (advanced stimulative) classification of cocaine and other sympathomimetic reactions, 325-332
use for treating cardiac arrhythmias, blood levels of, 581-583
Prosopis oblonga, 272-273
Pyrithiones, toxicity of, 1-26
Pyrrolizidine alkaloids, 273

Q

Quality control, in the toxicology laboratory, 141-151
Quinidine, use for treating cardiac arrhythmias, blood levels of, 570-572
Quinn, H., 409-438

R

Rappolt, N., 325-332

Rappolt, R. T., 325-332, 409-438, 487-504, 631-632
Rappolt, R. T., Sr., 325-332
Rat studies, ethylene and diethylene glycol toxicity, 297-325
  morphine and methadone, effects of on nuclear uptake of estradiol by the brain, 383-390
  theophylline intoxication—model study utilizing peritoneal dialysis, 505-511
  uricase-inhibited rat as animal model for toxicology testing, 47-74
Reuber, M. D., 231-256
Ricin, 271-272
Ricinus communis, 271-272
"Right to die," Natural Death Act (California, 1977), 513-522
Rodnitzky, R. L., 347-357

S

San Diego Poison Center, 587-599
Sedatives, 638-639
Serial gap list, 645
Sexual dysfunction, morphine and methadone, effects of on nuclear uptake of estradiol by the brain, 383-390
Shanor, S. P., 27-45, 281-296, 297-324
Sheep, cholinesterase determination in, comparison of two procedures for, 557-566
Sheridan, P. J., 383-390
Shingleton, D. P., 297-324
Siek, T. J., 205-230
Smoking, during pregnancy, 530-531
  as volitional disorder, 634-635
Snakebite, treatment for, and international antivenin index, 409-438
Soaps, fluorescent whitening agents, toxicological properties of, 171-203
Solanaceae fam., 274
Solanum nigrum, 273-274
Solvents, organic, to remove drugs from biologic specimens, 205-230
Sorghum halepense, 274
Speed, 638
Stavric, B., 47-74
Sudan, toxicity of indigenous plants and agricultural chemicals to farm animals in, 269-280
Sugar, excessive use of, 636
Sulthiame, analysis for using high performance liquid chromatography, 551-556
Surawicz, F. G., 479-486
Swimming pools, chlorine poisoning at, 377-381
Swine, cholinesterase determination in, comparison of two procedures for, 557-566

T

Tea, excessive use of, 636-637
Teratogenic drugs, pregnancy and drugs, 523-533
Test animals, identification methods for small animals, 601-610
  selection of animal species for research projects, 611-621
  uricase-inhibited rat as animal model in toxicology, 47-74
Testing, quality control, 141-151
Theophylline, analysis for using high performance liquid chromatography, 551-556
Theophylline intoxication, model study utilizing peritoneal dialysis, 505-511

Thin-layer chromatography, rapid detection of amphetamines in urine by, 545-549
Thompson, J. D., 545-549
Thymelaeacae fam., 271
Toxic dermatitis, factors influencing response to irritants, 333-346
Triazines, symmetrical, uricase inhibition by, 51-53
Triphenyl tin hydroxide (Vancide KS), acute and subacute toxicology and safety evaluation of, 281-296

U

Uricase-inhibited rat, as animal model in toxicology, 47-74
Urine analysis, for amphetamines, rapid detection by micro thin-layer chromatography and fluorescence, 545-549

V

Vancide KS, acute and subacute toxicology and safety evaluation of, 281-296
Veterinary applications, cholinesterase determination in livestock, comparison of two procedures for, 557-566
toxicity of indigenous plants and agricultural chemicals in the Sudan, 269-280
Volitional disorders, 633-639

W

Waldbott, G. L., 391-402
"Walking O.D.'s," use of propranolol in, 325-332
Winek, C. L., 27-45, 281-296, 297-324
Withania somnifera, 274

X

Xylocaine, use for treating cardiac arrhythmias, blood level of for, 576-578

Y

Yaffe, S. J., 523-533
Yeh, T. F., 463-467

Z

Zinc pyrithione, toxicity of, 1-26
